

Sustainable Development Goals

During the Smart Solution Semester the group of Contact Persons from the cluster Sustainable Development Goals (SDG's) is tasked with organising the Symposium. This means the group must make sure that there is a solid planning of the designated day so that everyone knows what will happen and when it will happen. Another part of this task is that the contact persons create a list of invitees, so that it is known how many people will be present during the entire event.

The Symposium will start off with a small opening and then it's going to be followed by a short film about the different groups in this cluster. During the Symposium each group gets 20 minutes to present and answer questions from the public, and there will probably be 1 guest-speaker at the event. We are still discussing possible candidates. As of right now the Symposium will take place on the 8th of January from 10am until 1pm as can be seen in the timetable below.

Timetable Symposium. 10.00-13.00. 08-01-2021

10.00-10.05	Opening (5min)
10.05-10.15	Introduction Film (10min)
10.15-10.35	Presentation + questions group 1 (20min) Impact your study - 1
